A photograph of Villa Prevert (Abeg) in winter. The villa is a large, light-colored, two-story building with a brown roof and two chimneys. It is surrounded by snow-covered grounds and bare trees. A blue circular road sign with a white arrow pointing right is visible in the foreground. The sky is clear and blue.

A wide, calm river flows through a dense forest. The water is dark and reflects the surrounding greenery and the overcast sky. The banks are covered in thick trees and foliage. A small, grassy patch is visible on the right bank. The sky is filled with soft, grey clouds.
